Floricultura
ORCHIDACEAE & ARACEAE

Our Anthurium range

At Floricultura, our success starts with people - and the plants they nurture. Since 2018, we have expanded our range with Anthurium, offering a unique assortment of varieties that combine vibrant colors, distinctive shapes, and strong genetics.

Our Anthurium assortment caters to all pot sizes, providing growers with versatile and high-quality plants for a wide range of markets. With exciting new series now available, this collection continues to grow, bringing fresh inspiration and outstanding results for growers and consumers alike.

Explore our latest Anthurium assortment, including exciting new varieties - grown with care, backed by science, and ready to inspire.

With pride,
The dedicated team of Floricultura

Cold tolerance

Cold tolerance indicates how well a plant can withstand lower temperatures during transport or storage. To determine this, our plants are tested at 7°C for 72 hours, simulating real transport conditions.

This icon indicates the cold tolerance of the flowering plant

Anthurium Ballerino

Anthurium Ballerino is a series that celebrates movement and grace. With elegantly curved, upward-facing spathes and a refined 2:1 flower shape ratio, each plant performs like a poised dancer. Ballerino captures the art of elegance - light, balanced, and full of expression.

Anthurium Ballerino.

This newly launched series will soon be enriched with additional varieties. Visit our website to explore the latest introductions.

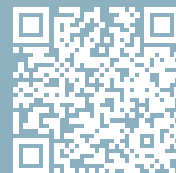

Anthurium

Bonumero

Anthurium Bonumero is a series of small-flowered varieties that boast abundant charm. Each plant carries at least eight small yet striking blooms, offering a lush and full appearance. Bonumero represents generosity and balance - many flowers, one strong impression.

Anthurium

Duotinto

Anthurium Duotinto is a series defined by striking contrasts and refined balance. Its vivid two-tone spathes display a perfect interplay of color, maintaining brilliance and depth over time. Duotinto embodies harmony in diversity - bold, expressive, and enduringly vibrant.

Our Spathiphyllum Range

Our Spathiphyllum assortment combines strength and versatility for growers focused on high-quality plants. The range includes varieties grown from both seed and tissue culture.

Seed-propagated varieties suit smaller pots or large bowls, while tissue culture plants offer higher value for larger pots and taller models. Seed trays contain 390 holes, tissue culture trays 286 - both with a glue plug base.

Developed by Van der Voort Young Plants, specialists in breeding and propagation for over 20 years, this range reflects their expertise and innovation. Floricultura represents and supplies these varieties to professional growers worldwide.

Spathiphyllum seedlings

- 390 holes tray
- 15 mm plug
- 380 x 2 plants per tray
- Delivery time 10 weeks

- 28 holes tray
- 7 cm plug
- 1 tissue culture per plug
- Delivery time 30/40 weeks

Spathiphyllum tissue culture

- 28 holes tray
- 7 cm plug
- 3x390 per plug
- Delivery time 30/40 weeks

- 48 holes tray
- 5,5 cm plug
- 1 tissue culture per plug
- Delivery time 30/40 weeks

- 286 holes tray
- 2.5 cm plug
- 1 tissue culture per plug
- Delivery time 18 weeks

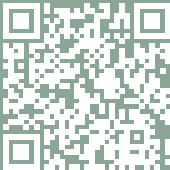

- Tissue culture tub
- Delivery time as soon as possible

The specifications with regard to varieties are determined on the basis of multiple measurements conducted at Floricultura and a number of test locations.
Spike length and percentages depend strongly on cultivation method used and local conditions.

All figures listed in this catalogue were carefully compiled by Floricultura. Please bear in mind that these are only indicative. No rights can be derived from them.
Spike percentages based on insufficient data are not being published on this website. If you have any questions or require clarification about anything please contact one of our account managers.
